# STITCH COOPERATIVE GOES GAGA

*a pattern booklet for babies & children  
featuring SWTC yarns*

Our first collaborative pattern booklet features patterns in both knit and crochet for babies and children. All patterns use South West Trading Company yarns, are tech-edited by professional editors and feature high-quality photography by Stitch Cooperative's own Miriam Felton. Patterns include toys, blankets and garments, and most are appropriate for both genders, too! Go gaga with us and make these patterns for your little loved ones!

# STITCH COOPERATIVE SHAWLS

*a compendium of lovely shawls  
featuring Cascade yarns*

This pattern booklet contains shawls in both knit and crochet (not to mention one unique felted piece!) that use a variety of Cascade yarns. The patterns are tech-edited by professional editors, feature luscious photography, and are appropriate for a variety of experience levels.

Stitch Cooperative Shawls will be out later in 2010: in the meantime, check out some preview shots and get your needles ready!
